# Exercise Books, Project Books & Story Books

Learning to write from the ground up. The dotted third lines provide visual structure for young writers in the formation of letters. A great way to teach correct letter size and placement. Tall letters stretch to the sky, short letters stay in the grass and some letters dig underground.

Then these orders are delivered to your school clearly labelled for a stress free experience for all staff. Get your classrooms, admin office, staffroom and janitorial needs organised and ready for the new school year. We have all your requirements covered.

### 2: Student Book Packs

The student packs provide the students in each class with a box containing a set range of products as specified by the school and teaching staff. A lot of products used in primary schools are specialised and not always available from your chain stores and therefore students turn up to school with the incorrect product. Each student in the class has the same products and you can be guaranteed that each student has the brand of products you prefer. Each box is clearly labelled with the year level for quick & easy identification on distribution day. Distribution of boxes can be handled by the school or we can come to the school on a mutually agreed date.

### 3: Individual Booklists

We of course have all the experience needed to provide you the best knowledge and advice which ever path you decide to go down. You can opt for the traditional booklist where your students/families select which items they wish to purchase. Your booklist is built with full consultation from your staff. Your booklist can include any school charges, fees and levies. We have a user friendly online platform for the submission of booklists.
